

Attention VSF Owners and Managers---IMPORTANT INCOME

The only fee increase we can get is the following fee to offset the costs associated with these specific actions that you take to protect your property. I am gathering the information myself along with my grandson, Zach Rash. He may be contacting you for information as well. The information will remain confidential to the industry as a whole, however it will be given to TDLR to verify.

This is a quick survey. From this survey, I will pick VSF's all across Texas and by size and numbers. PLEASE HELP! This is the ONLY way we can get an increase and defray these costs.

We MUST do this together! DUE- TUESDAY, AUGUST 1ST

ENVIRONMENTAL (DISPOSAL) FEE 2017 STUDY

(Information will be given directly to TDLR by me personally and not distributed to others)

The goal is a one-time fee of \$ 3 to 5 per vehicle.

NAME OF FACILITY _____

ADDRESS _____

1. How many vehicles do you store per month? _____
